NORMAL PHYSIOLOGY

TEXTBOOK FOR STUDENTS' INDEPENDENT WORK

 «GEOTAR-Media»
PUBLISHING GROUP

Normal physiology /
Ye. V. Dorokhov, A. V.
Karpova , V. A. Semiletova
[et al.]. - Moscow:
GEOTAR-Media, 2021. -
512 p. [FULL TEXT](#)

Annotation:

The textbook is designed to improve the efficiency of students' independent work in training for practical and final classes in extracurricular time. It contains theoretical material, arranged in a logical structure, revealing the most important mechanisms and regulations of physiological processes, as well as profile material for students of General Medicine faculty. The textbook includes control questions, situational tasks and keys to them.

It is intended for students studying in the training area of 31.05.01 «General Medicine», a course of Normal physiology. It can also be useful for doctors interested in the physiological basis of their specialty.
