1. The Trauma Manual: Trauma and Acute Care Surgery

eBook

By: Peitzman, Andrew B. Series: Lippincott Manual. Edition: Fourth edition. Philadelphia : Wolters Kluwer Health. 2013. eBook. Description: No member of the emergency room or trauma ward physician should be without this 4th edition of The Trauma Manual: Trauma and Acute Care Surgery. Designed to be used as a quick reference, this multidisciplinary pocket guide addresses all areas of trauma and emergency surgery with a list of key points at the end of each chapter. In addition to a new section on the intensive care unit and an extended section on surgical emergencies, this manual also covers GI hemorrhage, hernias, bowel obstruction, ... (AN 1473127)

Subjects: MEDICAL / Surgery / General; Surgical emergencies--Handbooks, manuals, etc; Wounds and injuries--Handbooks, manuals, etc; **Traumatology**--Handbooks, manuals, etc

2. Encyclopedia of Trauma : An Interdisciplinary Guide

eBook

By: Figley, Charles R. Thousand Oaks, Calif : SAGE Publications, Inc. 2012. eBook. Description: Trauma is defined as a sudden, potentially deadly experience, often leaving lasting, troubling memories. **Traumatology** (the study of trauma, its effects, and methods to modify effects) is exploding in terms of published works and expanding in terms of scope. Originally a narrow specialty within emergency medicine, the field now extends to trauma psychology, military psychiatry and behavioral health, post-traumatic stress and stress disorders, trauma social work, disaster mental health, and, most recently, ... (AN 525926)

Subjects: PSYCHOLOGY / Psychopathology / Post-Traumatic Stress Disorder (PTSD); Psychic trauma--Encyclopedias; Post-traumatic stress disorder--Social aspects--Encyclopedias; Post-traumatic stress disorder--Encyclopedias; Electronic encyclopedias; Psychic trauma--Social aspects--Encyclopedias

Encyclopedia of Trauma : An Interdisciplinary Guide

Авторы: Figley, Charles R.

Информация об издании: Thousand Oaks, Calif : SAGE Publications, Inc. 2012

Тип источника: eBook.

Описание: **Trauma** is defined as a sudden, potentially deadly experience, often leaving lasting, troubling memories. Traumatology (the study of **trauma**, its effects, and methods to modify effects) is exploding in terms of published works and expanding in terms of scope. Originally a narrow specialty within emergency medicine, the field now extends to **trauma** psychology, military psychiatry and behavioral health, post-traumatic stress and stress disorders, **trauma** social work, disaster mental health, and, most recently, the subfield of history and **trauma**, with sociohistorical examination of long-term effects and meanings of major **traumas** experienced by whole communities and nations, both natural (Pompeii, Hurricane Katrina) and man-made (the Holocaust, 9/11). One reason for this expansion involves important scientific breakthroughs in detecting the neurobiology of **trauma** that is connecting biology with human behavior, which in turn, is applicable to all fields involving human thought and response, including but not limited to psychiatry, medicine and the health sciences, the social and behavioral sciences, the humanities, and law. Researchers within these fields and more can contribute to a universal understanding of immediate and long-term consequences—both good and bad—of **trauma**, both for individuals and for broader communities and institutions. **Trauma encyclopedias** published to date all center around psychological **trauma** and its emotional effects on the individual as a disabling or mental disorder requiring mental health services. This element is vital and has benefited from scientific and professional breakthroughs in theory, research, and applications. Our **encyclopedia** certainly will cover this central element, but our expanded conceptualization will include the other disciplines and will move beyond the individual.
