

Questions to exam of practice

1. Cardiopulmonary resuscitation
2. Anginal state(cardiogenic pains)
3. Hypovolemic shock
4. Syncope/collapse
5. Hemorrhagic shock
6. Acute cardiovascular failure
7. Traumatic shock
8. Hypertensive crisis
9. Comatose states. Diabetic ketoacidotic coma
10. Burns shock
11. Comatose states. Hemorrhagic stroke of the brain
12. Anaphylactic shock
13. Comatose states. Unknown etiology coma
14. Cardiogenic shock due to myocardia infraction
15. Acute respiratory insufficiency due to diphtheria
16. Crush-syndrome
17. Acute respiratory insufficiency due to upper airway obstruction
18. Acute respiratory insufficiency due to drowning
19. Burns and frostbites
20. Acute respiratory insufficiency due to strangulative asphyxia
21. Acute respiratory insufficiency due to status asthmaticus
22. Acute respiratory insufficiency due to massive pneumonia
23. Acute respiratory insufficiency due to atelectasis.
24. Acute respiratory insufficiency due to closed or open pneumothorax
25. Acute respiratory insufficiency due to hydro or haemothorax
26. Acute respiratory insufficiency due to thromboembolism of pulmonary artery
27. Emergent care: convulsive syndrome
28. Septic shock
29. Emergent care: tetanus
30. Emergent care: renal colic
31. Cardiogenic shock due to sever arrhythmia
32. Comatose states. Ischemic stroke of the brain
33. Comatose states. Hypoglycemic coma
34. Emergent care: hyperpyrexia
35. Poisons of mushrooms
36. Poisons of opioids
37. Poisons of vinegar acid orally

38. Poisons of carbon monoxide
39. Poisons of phosphor-organic substances
40. Poisons of cocaine
41. Poisons of methanol
42. Poison of ethanol
43. Emergent care: aspiration pneumonitis
44. Acute respiratory insufficiency due to tension pneumothorax
45. Spinal shock
46. Adrenal shock
47. Comatose states. Alcoholic coma
48. Snake bites
